PROFILE INFO

I am Devika C from Bangalore. I am a highly motivated and ambitious individual, currently pursuing 2nd year of B. Tech at India's First Liberal Science University. I have a strong background in Web development and Data Analysis. With specific experience and skill set in programming languages and problem-solving.

PROJECTS

Software Systems and Application Development

2023 - 1 week project

This project involved the development of a website using HTML, CSS, and JavaScript, with Firebase as the hosting platform. This project provided us with hands-on experience in developing and deploying web applications

Data wrangling and visualization

2023 -1 week project

I learned crucial skills such as data collection, data wrangling, and data visualization to transform raw and messy data into meaningful insights. The project involved processing and cleaning data, including missing and preparing it for analysis

Digital Transformation Project

2022 - 1 week project

This project aims to develop a digital solution that addresses the growth and operations challenges faced by small businesses. This project will enable small businesses to unlock their full potential in a rapidly evolving digital landscape.
